

How to use **CIMCO**Edit as the default editor in Mastercam X.

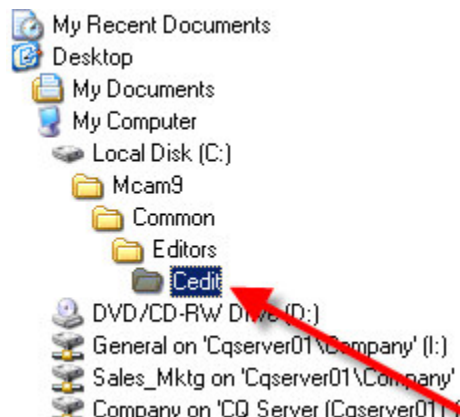

1: Go To Settings → Configuration...

2: Select Start / Exit

3: Under the editor drop down select other.

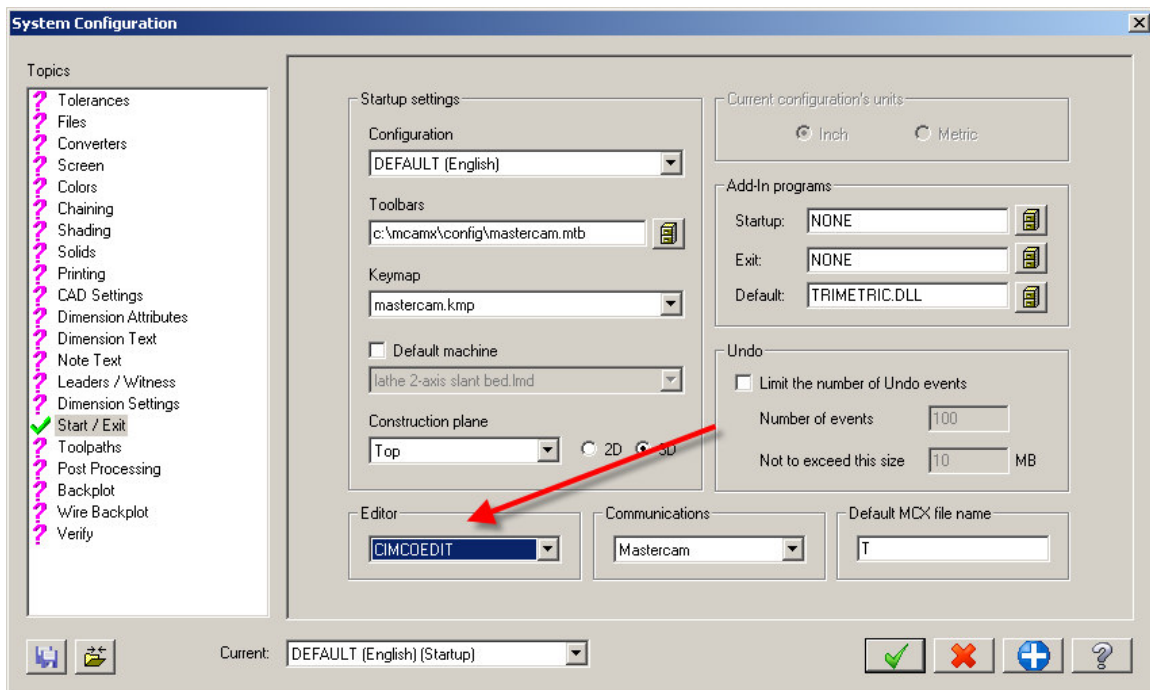

4: Navigate to your Mcam9 directory and go to the Common/Editors/Cedit Folder as shown below.

5: Select CIMCOEdit.exe and click ok.

Name	Size	Type	Date Modified
Cfg		File Folder	2/9/2005 4:43 PM
CNCEdit4		File Folder	1/19/2005 5:01 PM
CimcoDNC.exe	92 KB	Application	6/16/2003 11:12 AM
CIMCOEdit.exe	676 KB	Application	6/16/2003 11:04 AM

6: Now you will be able to select CIMCO as your default editor.

NOTE:

Do not uninstall Mastercam9 or the CIMCO editor will be erased. If you must uninstall Mastercam version 9 copy the CIMCO folder somewhere else and then uninstall it. When done, re-link the editor in X or put it back in the same location.
