

Cimquest Inc. Partners With SolidProfessor

BEDMINSTER, NJ (November 2009) – Cimquest Inc., a Value Added Reseller (VAR) of SolidWorks located in Northeast region of the US, has selected SolidProfessor's self-paced multimedia resources to complement its current training and support services. SolidProfessor is a SolidWorks Solution Partner focused on delivering the very best self-paced multimedia learning experience for SolidWorks.

Cimquest customers will have access to SolidProfessor's proprietary Learning Management System (LMS) that includes quick search functionality; real time course updates, semi-monthly Tips and Tricks from ASK SolidProfessor, automatic progress tracking, a custom course builder, online testing and reporting, and exercises with downloadable part files. In addition to the LMS, SolidProfessor includes the first of its kind "Search-On-Demand" productivity add-in for SolidWorks that allows users to access training at the click of a mouse without ever leaving the SolidWorks design environment. Installed as an add-in and accessible through the SolidWorks Task Pane, SolidProfessor's "Search-On-Demand" makes it easier than ever for CAD Professionals to get their design questions answered with the least disruption to their work flow.

Rob Hassold, President of Cimquest remarks, "We see SolidProfessor as a strong long-term partner because of the unique value they bring to our customers. SolidProfessor's ability to deliver concise, relevant SolidWorks resources directly inside of SolidWorks reinforces our live classroom training and helps our customers achieve higher levels of productivity. In this economy, everyone is looking for new ways to save money and improve the productivity of their engineering teams and this will be a big help."

David Ptak, President of SolidProfessor adds, "We are very excited to partner with Cimquest, a longtime SolidWorks VAR, and a company that is passionate about providing their customers with the best SolidWorks resources available. Today, more than ever, engineers need a blend of training, support, and resources at their fingertips to take full advantage of SolidWorks powerful capabilities."

About SolidProfessor

SolidProfessor is a SolidWorks Solution Partner 100% focused on creating the very best on-demand knowledge resources for users of SolidWorks and SolidWorks related software. The mission of SolidProfessor is to provide the highest quality and best value for all levels of SolidWorks users worldwide. SolidProfessor products may be ordered direct or from a growing number of SolidWorks Value Added Resellers including GoEngineer, Computer Aided Technology Inc., Intercad (Australia), Digital Dimensions, ModernTech Mechanical, Design Solutions BV (Benelux), Cimquest, Geometric Technologies, Inc., DesignPoint Solutions, CADD Edge, The SolidExperts, CAPINC and more.
