

Cimquest Increases Rapid Prototyping and 3D Printing Offerings for 2009

North America— Jan. 26, 2009— Cimquest Inc., the 1st Value Added Reseller of SolidWorks, a leading distributor of Mastercam and rapid prototyping solutions for design, engineering, and manufacturing professionals, announced today the company now offers Dimension 3D Printing Group's new uPrint Personal 3D Printers Nationally. Stratasys' high-end FDM systems, the FDM 900mc, FDM 400mc and FDM 360mc are also offered by Cimquest Inc. locally within the Mid Atlantic region.

Representing Stratasys as a Full-line Value Added Reseller (VAR) and rapid prototyping service provider, Cimquest Inc. is proud to add another valuable addition to our ever expanding 3D Printing & FDM machine product line. The Dimension uPrint is a fully-functional desktop-sized 3D printer that has a 24 x 26 inch desktop footprint. Launched by Dimension during their annual reseller conference, the uPrint makes 3D printing immediate and convenient from start to finish. It boasts a build envelope of 8 x 6 x 6 inches and uses the stronger ABSplus material. uPrint also features a soluble support removal system which allows support material to be discarded hands-free. It also allows for more complex design capabilities.

The uPrint is competitively priced at \$14,900 and is available for immediate purchase through Cimquest Inc. A special product bundle is available with uPrint and SolidWorks.* If you already have a CAD Solution please contact Cimquest for Special uPrint Pricing. For more information please call us at (866) 277-8778 ext. 3 or visit our website www.uPrintSource.com.

Cimquest Inc. also now represents several Stratasys high-end FDM machines to the list of products and services they currently offer. As publicized in December, Stratasys selected a group of its North American resellers to begin selling its high-end FDM systems starting January 1, 2009. Cimquest Inc. was chosen as one of those resellers. This means that Cimquest can now offer its customers even more prototyping solutions in addition to the Dimension 3D Printer. This new product line includes the FDM 900mc, FDM 400mc and FDM 360mc and targets both traditional prototyping as well as direct digital manufacturing (DDM) markets. For more information, please contact your Cimquest Sales Representative at 866-277-8778 option 3 or email sales@cimquest-inc.com.

For more information on Cimquest please visit www.cimquest-inc.com, and for additional information about uPrint by Dimension please visit www.uPrintSource.com.

*Offered a limited time only. Terms and Conditions apply. Promotion offer may be limited to territory restrictions. Contact Cimquest for more details.

About Cimquest

Since 1990, Cimquest has been a leading resource providing SolidWorks and Mastercam to design, engineering, and manufacturing professionals with exceptional service and innovative solutions. As one of the leading SolidWorks and Mastercam CAD/CAM integrators in the industry, our goal is to help manufacturing and design companies improve their processes using innovative technologies.

Cimquest is also a leading reseller of the Stratasys FDM Rapid Prototyping printers, Dimension 3D printers and the new uPrint line of personal 3D printers. From ABSplus models through direct digital manufacturing, Cimquest can provide all of your 3D printing needs.

Cimquest additionally offers implementation services including consulting, training, and technical support. As the first world-wide reseller of SolidWorks, the leading 3D modeling software, we pride ourselves in being one of the industry's leading providers of the latest technology integration for SolidWorks, Mastercam CAD/CAM, Rapid Prototyping, 3D printing and 3D personal printing solutions.
